Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

About this statement

Cost basis
This statement presents estimated unrealized or realized gains or losses for your information only. If acquisition or other information is not available, the gain/loss information may not be displayed and section and summary totals may not reflect your complete portfolio. Cost basis information is not verified by FCC or Your Introducing Firm and should not be relied upon for legal or tax purposes. Revisions to this information (due to corporate mergers, tenders and other reorganizations) may be required from time to time. To update your cost information or provide omitted cost information, contact Your Investment Broker.

Cost basis for factored bonds (GNMA, CMO, etc.) will be adjusted for paydown of principal. Systematic investments in mutual funds and reinvested dividends for mutual funds and stocks have been consolidated for each position. Unit cost data for systematic investments and dividend reinvestment securities is provided for informational purposes only and is a non-weighted average.

Your account statement should not be used for tax preparation without assistance from your tax consultant because it does not constitute an official accounting of gains/losses. We do not report capital gains or losses to the IRS.

Evergreen money market class A shares as sweep fund

The administrative fee is assessed at an annualized rate of 0.20% of assets invested in that sweep option. This fee has been directly deducted from the dividends you receive and the account statement reflects such dividends net of this fee.

About this statement

Cost basis
This statement presents estimated unrealized or realized gains or losses for your information only. If acquisition or other information is not available, the gain/loss information may not be displayed and section and summary totals may not reflect your complete portfolio. Cost basis information is not verified by FCC or Your Introducing Firm and should not be relied upon for legal or tax purposes. Revisions to this information (due to corporate mergers, tenders and other reorganizations) may be required from time to time. To update your cost information or provide omitted cost information, contact Your Investment Broker.

Cost basis for factored bonds (GNMA, CMO, etc.) will be adjusted for paydown of principal. Systematic investments in mutual funds and reinvested dividends for mutual funds and stocks have been consolidated for each position. Unit cost data for systematic investments and dividend reinvestment securities is provided for informational purposes only and is a non-weighted average.

Your account statement should not be used for tax preparation without assistance from your tax consultant because it does not constitute an official accounting of gains/losses. We do not report capital gains or losses to the IRS.

Evergreen money market class A shares as sweep fund
The estimated current yield for the money market fund shown on this account statement reflects the net dividend after deduction of an administrative fee assessed on the sweep option for your account, and assumes the dividend reflected on this statement will continue to be issued at this same yield for the next 12 months . The administrative fee is assessed at an annualized rate of 0.20% of assets invested in that sweep option. This fee has been directly deducted from the dividends you receive and the account statement reflects such dividends net of this fee.

About this statement

Cost basis
This statement presents estimated unrealized or realized gains or losses for your information only. If acquisition or other information is not available, the gain/loss information may not be displayed and section and summary totals may not reflect your complete portfolio. Cost basis information is not verified by FCC or Your Introducing Firm and should not be relied upon for legal or tax purposes. Revisions to this information (due to corporate mergers, tenders and other reorganizations) may be required from time to time. To update your cost information or provide omitted cost information, contact Your Investment Broker.

Cost basis for factored bonds (GNMA, CMO, etc.) will be adjusted for paydown of principal. Systematic investments in mutual funds and reinvested dividends for mutual funds and stocks have been consolidated for each position. Unit cost data for systematic investments and dividend reinvestment securities is provided for informational purposes only and is a non-weighted average.

Your account statement should not be used for tax preparation without assistance from your tax consultant because it does not constitute an official accounting of gains/losses. We do not report capital gains or losses to the IRS.

Evergreen money market class A shares as sweep fund
The estimated current yield for the money market fund shown on this account statement reflects the net dividend after deduction of an administrative fee assessed on the sweep option for your account, and assumes the dividend reflected on this statement will continue to be issued at this same yield for the next 12 months . The administrative fee is assessed at an annualized rate of 0.20% of assets invested in that sweep option. This fee has been directly deducted from the dividends you receive and the account statement reflects such dividends net of this fee.

Cash sweep activity

Our Cash Sweep program allows you to earn a return on the idle cash balances in your account by automatically investing such balances into one of our cash sweep options. These 'sweep transactions' may represent a net amount for the day and occur on settlement date. The following section displays transfers into and out of your sweep option. Transactions displayed here are Transfer To, Transfer From and Reinvested Dividends and Interest. These transaction amounts are not included in your cash flow summary.

About this statement

Cost basis
This statement presents estimated unrealized or realized gains or losses for your information only. If acquisition or other information is not available, the gain/loss information may not be displayed and section and summary totals may not reflect your complete portfolio. Cost basis information is not verified by FCC or Your Introducing Firm and should not be relied upon for legal or tax purposes. Revisions to this information (due to corporate mergers, tenders and other reorganizations) may be required from time to time. To update your cost information or provide omitted cost information, contact Your Investment Broker.

Cost basis for factored bonds (GNMA, CMO, etc.) will be adjusted for paydown of principal. Systematic investments in mutual funds and reinvested dividends for mutual funds and stocks have been consolidated for each position. Unit cost data for systematic investments and dividend reinvestment securities is provided for informational purposes only and is a non-weighted average.

Your account statement should not be used for tax preparation without assistance from your tax consultant because it does not constitute an official accounting of gains/losses. We do not report capital gains or losses to the IRS.

About this statement

Cost basis
This statement presents estimated unrealized or realized gains or losses for your information only. If acquisition or other information is not available, the gain/loss information may not be displayed and section and summary totals may not reflect your complete portfolio. Cost basis information is not verified by FCC or Your Introducing Firm and should not be relied upon for legal or tax purposes. Revisions to this information (due to corporate mergers, tenders and other reorganizations) may be required from time to time. Your account statement should not be used for tax preparation without assistance from your tax consultant because it does not constitute an official accounting of gains/losses. We do not report capital gains or losses to the IRS.

Evergreen money market class A shares as sweep fund
The estimated current yield for the money market fund shown on this account statement reflects the net dividend after deduction of an administrative fee assessed on the sweep option for your account, and assumes the dividend reflected on this statement will continue to be issued at this same yield for the next 12 months . The administrative fee is assessed at an annualized rate of 0.20% of assets invested in that sweep option. This fee has been directly deducted from the dividends you receive and the account statement reflects such dividends net of this fee.

The estimated current yield for the money market fund shown on this account statement reflects the net dividend after deduction of an administrative fee assessed on the sweep option for your account, and assumes the dividend reflected on this statement will continue to be issued at this same yield for the next 12 months . The administrative fee is assessed at an annualized rate of 0.20% of assets invested in that sweep option. This fee has been directly deducted from the dividends you receive and the account statement reflects such dividends net of this fee.

About this statement

Cost basis
This statement presents estimated unrealized or realized gains or losses for your information only. If acquisition or other information is not available, the gain/loss information may not be displayed and section and summary totals may not reflect your complete portfolio. Cost basis information is not verified by FCC or Your Introducing Firm and should not be relied upon for legal or tax purposes. Revisions to this information (due to corporate mergers, tenders and other reorganizations) may be required from time to time. To update your cost information or provide omitted cost information, contact Your Investment Broker.

Cost basis for factored bonds (GNMA, CMO, etc.) will be adjusted for paydown of principal. Systematic investments in mutual funds and reinvested dividends for mutual funds and stocks have been consolidated for each position. Unit cost data for systematic investments and dividend reinvestment securities is provided for informational purposes only and is a non-weighted average.

Your account statement should not be used for tax preparation without assistance from your tax consultant because it does not constitute an official accounting of gains/losses. We do not report capital gains or losses to the IRS.

Evergreen money market class A shares as sweep fund
The estimated current yield for the money market fund shown on this account statement reflects the net dividend after deduction of an administrative fee assessed on the sweep option for your account, and assumes the dividend reflected on this statement will continue to be issued at this same yield for the next 12 months . The administrative fee is assessed at an annualized rate of 0.20% of assets invested in that sweep option. This fee has been directly deducted from the dividends you receive and the account statement reflects such dividends net of this fee.

About this statement

Cost basis
This statement presents estimated unrealized or realized gains or losses for your information only. If acquisition or other information is not available, the gain/loss information may not be displayed and section and summary totals may not reflect your complete portfolio. Cost basis information is not verified by FCC or Your Introducing Firm and should not be relied upon for legal or tax purposes. Revisions to this information (due to corporate mergers, tenders and other reorganizations) may be required from time to time. To update your cost information or *provide omitted cost information*, contact Your Investment Broker.

Cost basis for factored bonds (*GNMA, CMO, etc.*) *will be adjusted for paydown of* principal. Systematic investments in mutual funds and reinvested dividends for mutual funds and stocks have been consolidated for each position. Unit cost data for systematic investments and dividend reinvestment securities is provided for informational purposes only and is a non-weighted average.

Your account statement should not be used for tax preparation without assistance from your tax consultant because *it does not constitute an official accounting* of gains/losses. We do not report capital gains or losses to the IRS.

Evergreen money market class A shares as sweep fund
The *estimated current yield for* the money market fund shown on this account statement reflects the net dividend after deduction of an administrative fee assessed on the sweep option for your account, and assumes the dividend reflected on this statement will continue to be issued at this same yield for the next 12 months . The administrative fee is assessed *at an annualized rate of* 0.20% of assets invested in that sweep option. This fee has been directly deducted from the dividends you receive and the account statement reflects such dividends net of this fee.

Specific instructions and disclosures

About this statement

Callable bonds and preferred stock
Bonds and preferred stock that are subject to a partial call will be selected by an impartial lottery process pursuant to NYSE Rule 402.30 in which the probability of your securities being selected for redemption is proportional to the holdings of all shareholders of such securities held in street name. If a security is called prior to maturity it may affect the yield you receive. Additional information is available upon request.

Cost basis
This statement presents estimated unrealized or realized gains or losses for your information only. If acquisition or other information is not available, the gain/loss information may not be displayed and section and summary totals may not reflect your complete portfolio. Cost basis information is not verified by FCC or Your Introducing Firm and should not be relied upon for legal or tax purposes. Revisions to this information (due to corporate mergers, tenders and other reorganizations) may be required from time to time. To update your cost information or provide omitted cost information, contact Your Investment Broker.

Cost basis for factored bonds (GNMA, CMO, etc.) will be adjusted for paydown of principal. Systematic investments in mutual funds and reinvested dividends for mutual funds and stocks have been consolidated for each position. Unit cost data for systematic investments and dividend reinvestment securities is provided for informational purposes only and is a non-weighted average.

Your account statement should not be used for tax preparation without assistance from your tax consultant because it does not constitute an official accounting of gains/losses. We do not report capital gains or losses to the IRS.

You may change or revoke your election at any time and as often as you wish by completing a new election form. If you elect check writing privileges, you will also have previously elected to have no withholding on your withdrawals. If you elect not to have taxes withheld you will be liable for payment of all taxes due on the taxable portion of your distribution and you may be responsible for payment of estimated tax. Specific instructions and disclosures

About this statement

Callable bonds and preferred stock
Bonds and preferred stock that are subject to a partial call will be selected by an impartial lottery process pursuant to NYSE Rule 402.30 in which the probability of your securities being selected for redemption is proportional to the holdings of all shareholders of such securities held in street name. If a security is called prior to maturity it may affect the yield you receive. Additional information is available upon request.

Cost basis
This statement presents estimated unrealized or realized gains or losses for your information only. If acquisition or other information is not available, the gain/loss information may not be displayed and section and summary totals may not reflect your complete portfolio. Cost basis information is not verified by FCC or Your Introducing Firm and should not be relied upon for legal or tax purposes. Revisions to this information (due to corporate mergers, tenders and other reorganizations) may be required from time to time. To update your cost information or provide omitted cost information, contact Your Investment Broker.

Cost basis for factored bonds (GNMA, CMO, etc.) will be adjusted for paydown of principal. Systematic investments in mutual funds and reinvested dividends for mutual funds and stocks have been consolidated for each position. Unit cost data for systematic investments and dividend reinvestment securities is provided for informational purposes only and is a non-weighted average.

Your account statement should not be used for tax preparation without assistance from your tax consultant because it does not constitute an official accounting of gains/losses. We do not report capital gains or losses to the IRS.

About this statement

Cost basis
This statement presents estimated unrealized or realized gains or losses for your information only. If acquisition or other information is not available, the gain/loss information may not be displayed and section and summary totals may not reflect your complete portfolio. Cost basis information is not verified by FCC or Your Introducing Firm and should not be relied upon for legal or tax purposes. Revisions to this information (due to corporate mergers, tenders and other reorganizations) may be required from time to time. To update your cost information or provide omitted cost information, contact Your Investment Broker.

Cost basis for factored bonds (GNMA, CMO, etc.) will be adjusted for paydown of principal. Systematic investments in mutual funds and reinvested dividends for mutual funds and stocks have been consolidated for each position. Unit cost data for systematic investments and dividend reinvestment securities is provided for informational purposes only and is a non-weighted average.

Your account statement should not be used for tax preparation without assistance from your tax consultant because it does not constitute an official accounting of gains/losses. We do not report capital gains or losses to the IRS.

Evergreen money market class A shares as sweep fund
The estimated current yield for the money market fund shown on this account statement reflects the net dividend after deduction of an administrative fee assessed on the sweep option for your account, and assumes the dividend reflected on this statement will continue to be issued at this same yield for the next 12 months . The administrative fee is assessed at an annualized rate of 0.20% of assets invested in that sweep option. This fee has been directly deducted from the dividends you receive and the account statement reflects such dividends net of this fee.

About this statement

Cost basis

This statement presents estimated unrealized or realized gains or losses for your information only. If acquisition or other information is not available, the gain/loss information may not be displayed and section and summary totals may not reflect your complete portfolio. Cost basis information is not verified by FCC or Your Introducing Firm and should not be relied upon for legal or tax purposes. Revisions to this information (due to corporate mergers, tenders and other reorganizations) may be required from time to time. To update your cost information or provide omitted cost information, contact Your Investment Broker.

Cost basis for factored bonds (GNMA, CMO, etc.) will be adjusted for paydown of principal. Systematic investments in mutual funds and reinvested dividends for mutual funds and stocks have been consolidated for each position. Unit cost data for systematic investments and dividend reinvestment securities is provided for informational purposes only and is a non-weighted average.

Your account statement should not be used for tax preparation without assistance from your tax consultant because it does not constitute an official accounting of gains/losses. We do not report capital gains or losses to the IRS.

Evergreen money market class A shares as sweep fund

The estimated current yield for the money market fund shown on this account statement reflects the net dividend after deduction of an administrative fee assessed on the sweep option for your account, and assumes the dividend reflected on this statement will continue to be issued at this same yield for the next 12 months . The administrative fee is assessed at an annualized rate of 0.20% of assets invested in that sweep option. This fee has been directly deducted from the dividends you receive and the account statement reflects such dividends net of this fee.

About your rights and responsibilities

You may change or revoke your election at any time and as often as you wish by completing a new election form. If you elect check writing privileges, you will also have previously elected to have no withholding on your withdrawals. If you decide to have taxes withheld you will not be eligible for check writing from your IRA. If you elect not to have taxes withheld you will be liable for payment of all taxes due on the taxable portion of your distribution and you may be responsible for payment of estimated tax. You may be subject to tax penalties under the estimated tax payment rules if your payments of estimated tax and withholding, if any, are not adequate.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

About this statement

Callable bonds and preferred stock
Bonds and preferred stock that are subject to a partial call will be selected by an impartial lottery process pursuant to NYSE Rule 402.30 in which the probability of your securities being selected for redemption is proportional to the holdings of all shareholders of such securities held in street name. If a security is called prior to maturity it may affect the yield you receive. Additional information is available upon request.

Cost basis
This statement presents estimated unrealized or realized gains or losses for your information only. If acquisition or other information is not available, the gain/loss information may not be displayed and section and summary totals may not reflect your complete portfolio. Cost basis information is not verified by FCC or Your Introducing Firm and should not be relied upon for legal or tax purposes. Revisions to this information (due to corporate mergers, tenders and other reorganizations) may be required from time to time. To update your cost information or provide omitted cost information, contact Your Investment Broker.

Cost basis for factored bonds (GNMA, CMO, etc.) will be adjusted for paydown of principal. Systematic investments in mutual funds and reinvested dividends for mutual funds and stocks have been consolidated for each position. Unit cost data for systematic investments and dividend reinvestment securities is provided for informational purposes only and is a non-weighted average.

Your account statement should not be used for tax preparation without assistance from your tax consultant because it does not constitute an official accounting of gains/losses. We do not report capital gains or losses to the IRS.

About this statement

Cost basis

This statement presents estimated unrealized or realized gains or losses for your information only. If acquisition or other information is not available, the gain/loss information may not be displayed and section and summary totals may not reflect your complete portfolio. Cost basis information is not verified by FCC or Your Introducing Firm and should not be relied upon for legal or tax purposes. Revisions to this information (due to corporate mergers, tenders and other reorganizations) may be required from time to time. To update your cost information or provide omitted cost information, contact Your Investment Broker.

Cost basis for factored bonds (GNMA, CMO, etc.) will be adjusted for paydown of principal. Systematic investments in mutual funds and reinvested dividends for mutual funds and stocks have been consolidated for each position. Unit cost data for systematic investments and dividend reinvestment securities is provided for informational purposes only and is a non-weighted average.

Your account statement should not be used for tax preparation without assistance from your tax consultant because it does not constitute an official accounting of gains/losses. We do not report capital gains or losses to the IRS.

You may change or revoke your election at any time and as often as you wish by completing a new election form. If you elect check writing privileges, you will also have previously elected to have no withholding on your withdrawals. If you decide to have taxes withheld you will not be eligible for check writing from your IRA. If you elect not to have taxes withheld you will be liable for payment of all taxes due on the taxable portion of your distribution and you may be responsible for payment of estimated tax. About this statement

Callable bonds and preferred stock
Bonds and preferred stock that are subject to a partial call will be selected by an impartial lottery process pursuant to NYSE Rule 402.30 in which the probability of your securities being selected for redemption is proportional to the holdings of all shareholders of such securities held in street name. If a security is called prior to maturity it may affect the yield you receive. Additional information is available upon request.

Cost basis
This statement presents estimated unrealized or realized gains or losses for your information only. If acquisition or other information is not available, the gain/loss information may not be displayed and section and summary totals may not reflect your complete portfolio. Cost basis information is not verified by FCC or Your Introducing Firm and should not be relied upon for legal or tax purposes. Revisions to this information (due to corporate mergers, tenders and other reorganizations) may be required from time to time. To update your cost information or provide omitted cost information, contact Your Investment Broker.

Cost basis for factored bonds (GNMA, CMO, etc.) will be adjusted for paydown of principal. Systematic investments in mutual funds and reinvested dividends for mutual funds and stocks have been consolidated for each position. Unit cost data for systematic investments and dividend reinvestment securities is provided for informational purposes only and is a non-weighted average.

Your account statement should not be used for tax preparation without assistance from your tax consultant because it does not constitute an official accounting of gains/losses. We do not report capital gains or losses to the IRS.

About your rights and responsibilities

You may change or revoke your election at any time and as often as you wish by completing a new election form. If you elect check writing privileges, you will also have previously elected to have no withholding on your withdrawals. If you decide to have taxes withheld you will not be eligible for check writing from your IRA. If you elect not to have taxes withheld you will be liable for payment of all taxes due on the taxable portion of your distribution and you may be responsible for payment of estimated tax. If you turn 70 1/2 in 2010, you must take a Required Minimum Distribution (RMD) with respect to your IRA by April 1st of 2011. If you turned 70 1/2 prior to 2010, you must take an RMD payment by December 31, 2010. The RMD amount indicated below is recalculated each year and may yield a different result. In accordance with IRS instructions, we will report to the IRS if you are required to receive an RMD for that calendar year. Please contact us if you need the details of the RMD calculations or your current year RMD amount.

About your rights and responsibilities

IRA withholding notice **Form W-4P/OMB No. 1454-0415**
The withdrawals you receive from your IRA (except Education IRA) are subject to Federal income tax withholding unless you elect not to have withholding apply. If you have a periodic, or an "on demand" distribution, your election regarding our withholding of Federal income tax on your behalf stays in effect until you change it. You may change or revoke your election at any time and as often as you wish by completing a new election form. If you elect check writing privileges, you will also have previously elected to have no withholding on your withdrawals. If you decide to have taxes withheld you will not be eligible for check writing from your IRA. If you elect not to have taxes withheld you will be liable for payment of all taxes due on the taxable portion of your distribution and you may be responsible for payment of estimated tax. You may be subject to tax penalties under the estimated tax payment rules if your payments of estimated tax and withholding, if any, are not adequate.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.

Advisory fees are calculated on the fair market value of the assets, as determined by SWS, on the last business day of the preceding calendar quarter. If the management of the account commences or is terminated at any time other than at the beginning or end of a calendar quarter, the fee is prorated based on the initial account value and the number of days the account was open in that quarter. For calculation purposes the fee is based on 365 actual days in a year (366 for leap year). The calculation is as follows: (Market Value x Rate x ((Days / 365)) with the Rate being the agreed upon fee within the Advisory Agreement. For more complete information on the fee charged, please contact your representative. If you would like a copy of the most recent form ADV or disclosure brochure document, which describes our programs, including services and fees, you may contact your representative.
