†† Your allocation instructions, as of 12/31/2010, are shown above.

† A unit value is the value of a unit in a sub-account (or Fund). Contributions to a sub-account purchase units of that Fund. A unit represents a portion of the sub-account's total assets.

You are allowed a maximum of two exchanges per month. After the exchange limit, you may move 100% of your account to a money market or stable value fund where it must remain for 30 days. Trading can resume only once the 30 days have expired. Also, additional restrictions may be imposed if it is determined that any exchange activity may disrupt or be potentially disruptive to an investment option, even though in compliance with our policy. For more information, visit www.jhpensions.com. Also check with your Plan Administrator for additional restrictions that may be imposed by your plan. It is important for your long-term retirement security that your portfolio be well-balanced and diversified. If you invest more than 20% of your portfolio in any one industry or company, your savings may not be properly diversified. Market or other economic conditions generally have different impact on different asset categories. Although it is not a guarantee against loss, diversification among different types of investments can help you manage investment risk. In deciding how to invest your retirement savings, you should take into account all your assets, and other factors such as your financial goals, time horizons, and risk tolerance. It is also important to periodically review your investment portfolio, your investment objectives, and the investment options under the Plan to help ensure that your retirement savings will meet your retirement goals. For more information on individual investing and diversification, visit the Department of Labor's website at www.dol.gov/ebsa/investing.html.

PORTFOLIO DETAILS

Your holdings are valued using the most current prices available to Citigroup Global Markets Inc. (CGMI). In most cases, these values are as of 12/31/10, but in some cases CGMI's sources are unable to provide timely information. To see the date of the most recent price update, please view your account online at www.smithbarney.com.

Securities purchased or sold are included or excluded in this section as of the trade-date. This section may include securities that have not settled as of this statement closing date. Please see the "Unsettled Purchases/Sales" section for more information. Dividend yield is the estimated annual income, assuming the current dividend, divided by the security's market price at the end of the statement period. We do not guarantee the accuracy of the prices reflected on the statement nor do these prices represent levels at which securities can be bought or sold. Please Note: unrealized gain/(loss) is being shown for informational purposes only and should not be used for tax preparation without the assistance of your tax advisor.

Money fund

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

Exchange traded & closed end funds
Citi Investment Research & Analysis (CIRA) ratings may be shown for certain closed-end funds. All research ratings represent the "opinions" of the research provider and are not representations or guarantees of performance. Because the research report contains more complete information regarding the analyst's opinions, analysis, and rating, you should read the entire research report and not refer to its contents from the rating. CIRA closed-end fund recommendations include an investment rating and a risk rating. The Investment Rating code (1, 2, 3) is based upon CIRA's expectation of the security's performance relative to its peer group of closed-end funds. The Risk Rating (L, M, H or S) represents the fund's expected risk, taking into account the quality and liquidity of the underlying securities, financial leverage and foreign currency exposure. Please refer to the end of this statement for a guide describing CIRA ratings.

Closed end investment companies are grouped below by portfolio designations. Gain/Loss is provided to assist in tax preparation. It is not intended to calculate investment returns or performance.

Consulting Group Research (CGR) conducts on-going research on a wide variety of exchange-traded funds for certain investment advisory programs. Your individual exchange-traded fund holdings in your brokerage account may or may not be covered by CGR. Please contact your Financial Advisor for further information regarding whether your exchange-traded fund holdings are covered by CGR.

The "Market Value" and "Unrealized Gain(Loss)" figures shown are representative values as of the last business day of the period shown above which may not reflect the value that could actually be obtained in the market. See "Pricing of Securities" in the Disclosures section at the end of this statement. Estimated annual income and estimated yield for certain securities can include return of principal or capital gains which could overstate such estimates. Estimated yield and estimated annual income are estimates and the actual income or yield may be lower or higher than the estimates. Estimated yield reflects only the income generated by an investment. It does not reflect changes in its price, which may fluctuate. If you hold structured products, please refer to the Special Considerations Regarding Structured Products section of the Disclosure section. Gain/Loss information is provided for informational purposes only and should not be used for tax preparation. Please refer to the gain/loss section of the disclosures for important information about gain/loss reporting. From January through September, realized gain/loss information will be shown only for trades settling in the current month, and/or certain adjustments (to previously closed lots) made in the current month. From October through December, in order to provide information for year-end investment planning, complete year to date realized gain/loss detail will be displayed for trades settling through the last business day of the year.

The Estimated Gain and Loss information is provided for informational purposes only and may not be relied upon in making any tax, accounting or regulatory filing or report. We recommend that you contact your tax advisor to determine the appropriate information to be used in the preparation of your tax return. This Estimated Gain and Loss Summary is not a substitute 1099 form (or any other appropriate tax form) and should not be filed with your taxes. The Total Cost, Unit Cost and Proceeds of eligible equity and options transactions with Choice SelectSM pricing do not include commissions paid on your purchases or sales and therefore may not equal the acquisition price or principal amount of the sale. Cost basis adjustments for Choice Select Eligible Trades will be reflected in the account shortly after the calendar month-end. The figures should be independently verified. Estimated Gain and Loss information does not take into account a taxpayer's particular circumstances such as the existence of hedging transactions, constructive sales or marked-to-market pricing adjustments on certain options held at year-end. Please note that although Morgan Stanley Smith Barney LLC makes every effort to adjust the cost basis for such securities' capital changes, it does not adjust the cost basis for all events, including amortization of non-municipal bond premiums, exercise of unlisted stock options, securities deemed to have been sold and simultaneously repurchased, receipt of cash in lieu of fractional shares, or the net effect of wash sales and/or short sales against the box.

For securities not purchased through Morgan Stanley Smith Barney LLC, for example, securities purchased elsewhere and later transferred to it, any data included in the Estimated Gain and Loss information has been provided either by you or another financial institution. Whether provided by you, another financial institution or Morgan Stanley Smith Barney LLC, it is your responsibility to ensure the accuracy of all of the Estimated Gain and Loss information. Please contact your Financial Advisor with any questions or to correct any information.

For Managed Futures and alternative investments, there are likely to be restrictions on redemptions, please see applicable offering document.

With respect to estimated gains and losses for listed equity options, Morgan Stanley Smith Barney has taken into account option premiums paid or received and, in respect to multiple purchases and/or sales, calculated cost using an average unit price for all like positions. Morgan Stanley Smith Barney has made calculations using what appear to be off-setting positions; no assurance can be given that these positions are intended to off-set each other or that they are not intended to off-set other securities positions, in which case the analysis may be different. Morgan Stanley Smith Barney has obtained pricing information from independent sources it believes to be reliable. No assurance can be given that the values given are accurate. Values are subject to change and are as of a given point in time only. Past performance does not guarantee future returns.

PORTFOLIO DETAILS

Your holdings are valued using the most current prices available to Citigroup Global Markets Inc. (CGMI). In most cases, these values are as of 12/31/10, but in some cases CGMI's sources are unable to provide timely information. To see the date of the most recent price update, please view your account online at www.smithbarney.com.

Securities purchased or sold are included or excluded in this section as of the trade-date. This section may include securities that have not settled as of this statement closing date. Please see the "Unsettled Purchases/Sales" section for more information. Dividend yield is the estimated annual income, assuming the current dividend, divided by the security's market price at the end of the statement period. We do not guarantee the accuracy of the prices reflected on the statement nor do these prices represent levels at which securities can be bought or sold. Please Note: unrealized gain/(loss) is being shown for informational purposes only and should not be used for tax preparation without the assistance of your tax advisor.

Money fund

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

Estimated Annual Income ("EAI") and Estimated Yield ("EY") calculations are for informational purposes only. The actual income and yield might be lower or higher than the estimated amounts. EY is based upon EAI and the current price of the security and will fluctuate. For certain types of securities, the calculations could include a return of principal or capital gains in which case EAI and EY would be overstated. EY and EAI are not promptly updated to reflect when an issuer has missed a regular payment or announced changes to future payments, in which case EAI and EY will continue to display at a prior rate.

Bank Deposit Program™

The Federal Deposit Insurance Corporation (FDIC) provides insurance on deposits up to \$250,000 per account owner, per bank. However, the Smith Barney Bank Deposit Program (BDP) applies certain limits to the maximum deposit amount permitted in certain banks, which may be below the maximum FDIC insurance limits for certain types of accounts. In those instances where an account type exceeds the maximum FDIC insurance limits, those deposits will be uninsured. Balances maintained in Deposit Accounts at each Affiliated Program Bank are not protected by the Securities Investor Protection Corporation ("SIPC") or any excess-SIPC coverage provided by Citigroup Global Markets Inc. For complete details please refer to the "Bank Deposit Program Disclosure Statement."

Mutual funds

An investment in a money market fund is neither insured nor guaranteed by the FDIC or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, there can be no assurance that will occur and it is possible to lose money should the fund value per share fall. Moreover, in some circumstances money market funds may be forced to cease operations when the value of a fund drops below \$1.00 per share. In that event, the fund's holdings would be liquidated and distributed to the fund's shareholders. This liquidation process could take up to one month or more. During that time, these funds would not be available to you to support purchases, withdrawals, and if applicable, check writing or ATM debits from your account.

Certain mutual funds may not be transferable to other broker-dealers. For further information, please refer to the fund's Prospectus or call your Financial Advisor. Consulting Group Research (CGR) conducts on-going research on a wide variety of mutual funds for certain investment advisory programs. Your individual mutual fund holdings in your brokerage account may or may not be covered by CGR. Please contact your Financial Advisor for further information regarding whether your mutual fund holdings are covered by CGR. Yield is the current distribution annualized, divided by the fund's net asset value at the end of the statement period. Distributions may consist of income, capital gains or the return of capital. Distributions and current dividend for funds are based upon information provided by an outside vendor and are not verified by us. "Tax-Based Cost vs. Current Value" is being provided for information purposes only. "Cash Distributions (since inception)" when shown, may reflect distributions on positions no longer held in the account, and may not reflect all distributions received in cash due to but not limited to the following: investments made prior to 1/1/89, asset transfers, recent activity and certain adjustments made in your account. "Total Purchases vs. Current Value" is provided to assist you in comparing your "Total purchases" excluding reinvested distributions, with the current value of the fund's shares in your account. "Fund Value Increase/Decrease" reflects the difference between your total purchases and the current value of the fund's shares, plus cash distributions since inception.
